

“PLANET EARTH NEEDS OUR HELP”

Welcome to my Planet Earth Story and
 Free Online Community Resource
 Exhibition Pack for Schools & Libraries

In this pack you will find:

- **A PDF version of my story book** “Planet Earth Needs Our Help” (to create posters or slideshows)
- A PDF version of **the notes on “the science behind”** global heating, climate change and other topics covered on each page of the book. (to create posters or slideshows)
- **A downloadable** activity book and worksheets, with creative activities that link to pages in the story book
- **A front-sheet template, for your school or library, to build your own creative file** of images, short stories, poems, inspired by the book.
- **Notes on how to use this story as a springboard for other projects/activities** connected to the Earth Charter, United Nations Sustainable Development Goals, and some themes in the National Curriculum.
- **A helpful action sheet** - “20 simple things we can all do to help reduce Global Warming”. (EDFOE)

If you visit my website www.planeteearthneedsourhelp.com

you will find:

- **An illustrated, video narrative of the story**, which can be followed with the book (offering a total communication resource, whilst supporting reading and communication skills) also <https://www.youtube.com/watch?v=hqVSaKAZnGU>
- **EarthDay21 Events and other events past, present and future.**
- **Information on anxiety and climate change**
- **Useful information and links** to schools, libraries, resources and organisations that may inspire and motivate you when developing, enhancing and adapting this project in your schools & libraries.

I hope you enjoy using this project to discover, learn, and find fun, helpful ways, to help Planet Earth and its inhabitants.

Please let me know how you get on!

Marylyn (author & illustrator)

Thank you for being a friend of Planet Earth
